OBCO has kept a fine tradition of producing bronze memorials of unsurpassed quality and service. Memorials are made by traditional method of castings, polymer and upon request "Handset" methods. Our Bronze alloy consists of copper, tin, lead and zinc melted at temperatures over 2000 degrees. After each casting cools, it is hand-finished by our artisans ensuring lettering and ornamentation meet our standards of excellence. A statuary paint color is applied along with a high finish coat to each of our memorials.

Our designs starts with many "**Pre-Designs**" but we inspire our customers to create their own designs through our "**Versa Designs**". It allows customers to create their own personalized memorials through our ordering forms or with our "On-Line Designer" at www.obronze.com.
